Anna,

Yes, after discussing the signs with Mr. Casale & the PRPs, the PRPs will be placing two additional signs on the north side of Marlin Ave – the signs will be the same as the ones put near the waste pits. I'll let you know (& Mr. Casale) when I hear that the signs have been placed.

Good Morning Gary,

I was just wondering if you've talked to Mr. Casale lately and what you decided on the placement of the Superfund signs at the site. Any update would be greatly appreciated. Thank you.

Have a wonderful day,
Anna
